

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Introduction.

THE original of the following List of Clergy in Eleven Deaneries of the Diocese of Chester, and of the List of Tenths and Subsidy payable in ten Deaneries, is in the Diocesan Registry, the Abbey Gateway, Chester.

When Mr. Price, the Registrar's Clerk, first drew my attention to the document it was lying with a mass of other papers in a dirty and disordered condition, evidently not having been touched for many years, probably not since the late Mr. Piccope made his copy of it, which copy is among the Piccope manuscripts at the Chetham Hospital, Manchester. My first task was to arrange the pages in their correct sequence, as they were loose and scattered; this was a work of some difficulty, but by aid of the size and direction of the book-worm burrows where the matter in the document itself did not afford a clue, it was possible to arrive with something like certainty at the original order of the pages.

The document appears to be a contemporary copy of two separate lists of slightly differing dates; the List of Clergy was apparently drawn up in the autumn of 1541 or the spring of 1542, while the table of Tenths and Subsidy seems to have been first made out in 1535, and subsequently corrected to 1538. Mr. Piccope, in his copy at Manchester, curiously enough makes a mistake of ten years, and dates the List of Clergy as 1531–32, and the

List of Tenths and Subsidy as 1535. There is nowhere in the document an allusion to its date, so that it is only from internal evidence that this can be ascertained.

There is abundant evidence in the List of Clergy that 1541–42 is its date, but the following examples are sufficient as proof :—

In Wirral Deanery, under Shotwick and Bromborough, mention is made of the Dean and Chapter of the Cathedral Church at Chester, which at once proves that the document cannot be earlier than the 4th August, 1541, the date of the founding of the See, while in the same Deanery Dominus Richardus Prestland is alluded to as Rector of Thurstaston, which rectory he resigned prior to June 23rd, 1542. Again, at Alderley the Rector is stated to be Robert Mainwaring, who resigned his living in June, 1542, so that the document must have been drawn up between August, 1541, and June, 1542; many other examples might be cited, but these are sufficient.

The date of the List of Tenths and Subsidy is fixed approximately by the holders of Prebends in the Collegiate Church of St. John the Baptist at Chester. David Pole was presented on the 28th March, 1538, and Edward Gregson died *ante* 27th March, 1539; also Wm. Skelton died *ante* 30th June, 1539, and Bryan Fuller, who was appointed on the 27th September, 1535, resigned on the 4th July, 1539. It is noteworthy, however, that under Wirral Deanery reference is made to the Monastery of Birkenhead, which was dissolved two years earlier than this; several other dissolved Monasteries are mentioned, but the allusions are probably explained by the suggestion I have made above that it is a copy from a document originally drawn up in 1535 and corrected to 1538.

There are several phrases in the List of Clergy which require explanation: — *Omissus* means "presented"; *vivit in scripta* apparently means "lives on alms," while

fovet hospitium might either mean "tends the hospice," or "keeps an inn."

The List of Clergy is complete for the whole of the Archdeaconry of Chester with the exception of the Deanery of Bangor, so in order to make up for this deficiency as far as possible I append a list of the Clergy in the Deanery of Bangor, in the year 1548, from the original at the Diocesan Registry:—

Editorial Note.

The original Survey, of which the following is a copy, was acquired a few years since by Mr. H. T. Folkard, for the Free Public Library, at Wigan, where it is now preserved.

The whole of it, except such entries as were made after June 23rd, 1662, or thereabouts, is in the handwriting of Mr. William Chorley, who succeeded his father at Chorley Hall on or about February 18th, $165\frac{4}{5}$, on which day Mr. Chorley, senior, was buried at Chorley. The writer of the Survey was buried at the same place June 23rd, 1662.

It will be noticed that the document is not complete, the pages dealing with Tenements 9 to 14 (inclusive) in Chorley, and with Tenements 3 to 6 (inclusive) in Walton-on-the-Hill, being wanting.

The Originall Tenure Deed of the Seigniory or Lordshippe of Walton cum Fazakerley is coppied out verbatim, as followeth :—

Datum per manus Willielmi Episcopi apud Hausted seuem in Gascoine 27 die Julij Anno regni nostri secundo.

An Exemplification or Confirmation of the former Deed by King H. 3. año Regni undecimo, &c:

☞ Henricus Dei gratia Rex Anglie, Dominus Hibernie &c. Sciatis Nos concessisse Richardo de Mida filio Gilberti de Walton totam terram de villa de Walton cum omnibus pertinencijs suis que dudum fuit in dominico Domini Johannis Regis Patris nostri et in manu suu solebat reddenti quadraginta solidos de debita antiqua et consueta firma per annum Tenendum et habendum sibi et heredibus suis in feoda-firma de nobis et heredibus nostris Reddendo inde per annum sexaginta solidos pro omni seruicio

From this s^d^ Ric) of Mida it succeeded for seuerall descents by Heires Males, until one John Walton became Lord of Walton—&c: and this was about the 14th yeare of K. Hen. the 4th.

This John Walton, uppon or soone after the marriage of his sister Ellen w^th^ Robert Fazakerley, did submitt to an Award made by S^r^ John Standley and James Holme, 5. H. 6 [1427] Wherby a third ꝑte of his Reall Estate was settled on his s^d^ sister Ellen in lieu of a marriage portion.

And by this Award M^r^ Fazakerley entitles himself to be a third Lord of Walton. And alledges that this s^d^ John Walton was a Bastard—&c: which allegation is altogether untrue. For there is an Exemplification (dated 36 Eliz.) [1594] w^ch^ proues this s^d^ John Walton to be the legittimate issue and next heire of Robert Walton, who was the last Lord of Walton next before this s^d^ John.

* This Deed, or Exemplification, is in the Custody of my Cozen Roger Bryers, at the Hall of Walton. And I haue taken a coppy therof w^ch^ is layd by amongst these Euidences that concerne Walton.

This s^d^ John had issue Thomas (about y^e^ 29 of H. 6) And he had issue Roger Walton (who was the last Lord of Walton of that name) havinge no issue male but only two Daughters

viz : Elizabeth (who was married unto Richard Crosse, &c.
and Margret (who was married unto William Chorley, &c.

Betwixt whom the whole Estate of Roger their late Father was equally diuided as Coheires, as may appeare by an Indenture or Deed of Partition dated 4 July and 9. H. 7. (año Dom̃. 1494). Between Rich^d^ Crosse and Roger his Sonne and heire and Elizabeth wife of the s^d^ Richard and one of the coheires of Roger Walton lately deceased on the one p̱te : And William Chorley of Chorley the elder and William his sonne and heire and Margret wife of the s^d^ William Chorley the father, and the other of the coheirs of Roger Walton aforesd on the other p̱te—&c :

This Originall Deed of Partition—&c : I have in my custody, amongst Walton Euidences.

Extracted verbatim forth of the afores^d^ Deed of Partition after the same maner and in the same order as they are mentioned in the said Deed : as followeth, viz :—

Introduction.

THE following List of Wills and other documents of a kindred nature has been compiled by Mr. W. H. Price, the Clerk to the Registrar, and very great credit is due to him for his perseverance in this laborious task, which, after months of unwearying toil, he has at length succeeded in completing.

Anyone who has attempted to arrange a mass of documents, and after having arranged has completely indexed them, can appreciate something of the work that Mr. Price has put into this Index. He is now engaged on arranging a still larger mass of material and in indexing these documents down to the year 1700.

The different documents are distinguished as follows:— Accounts of Executors and Administrators as "a/c," Bonds of Administrators as "Admon" and "A," Bonds of Executors as "Bond," Depositions, Allegations, and Interrogatories in Testamentary Cases as "Dep.," Wills are denoted by "Will" or the initial "W," and Inventories by "Inv." and by the capital "I."

It has not been possible at all times satisfactorily to determine the date of some of these documents, but it may be taken as a general rule that where the date is not given the document is probably of the time of Henry VIII. or Edward VI.

It is not very clear how the Wills come to be at the

Diocesan Registry instead of at the Probate Registry, but they were probably Wills about which some dispute had arisen, and were accordingly put aside while the case was pending in the Chancellor's Court, and have never been returned to their proper bundles, so that when in 1847 the Cheshire Wills were moved from the Diocesan Registry these were overlooked, and did not share in the removal.

The Depositions in many cases are more useful to the antiquary than the original Wills, as various interesting points were frequently brought out in the evidence, and also sometimes the Will itself, or a large portion of it, is recited in the depositions; on the other hand, to prevent disappointment, it should be added that many of the documents are very incomplete, and sometimes merely contain the interrogatories to be administered to the witnesses, or the words of the judgment delivered in the case.

The appended list gives a few Wills that have been found among other papers since the printing of the general index :—
